Black	F100
More colours	on request

Modern design coupled with a matt finish - this is what distinguishes the MAGIC SLIM anti-slip mat. When touching the anti-slip surface, it becomes clear that objects are protected from slipping by using the anti-slip mat in the drawer.

The grained surface of the MAGIC SLIM also gives each drawer a particularly high-quality look and protects the base. In combination with a cutlery insert, a harmonious picture is created. The MAGIC SLIM range is available in standard sizes or cut to size for the most common drawer systems on the market.

- Modern look
- Matt finish
- Slip-resistant
- Flexible use in all common drawer and cupboard types from 250 to 1200 mm width and 300 to 650 mm depth
- Also available as unfinished panels in a max. format of 1,400 x 2,100 mm
- Can be combined with ELCO cutlery inserts
