

TOP SORT

The flexible organiser system for kitchen base cabinets is well sorted and well equipped. Thanks to the high variance, it can accommodate almost any type and size of packaging. Whether tins, boxes, bags or other forms of storage. TOP SORT gives everything its appropriate place and allows the user an overview of all the storage material at any time. In addition, a high-quality plus is a plastic insert for up to three metal cans as well as translucent plastic trays. They can be moved onto the main frames as a so-called second level.

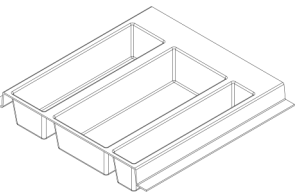

Another advantage is the ease of care. Not only are the trays from the accessories range easy to clean, but the insert itself is also easy to wipe out due to its material, surface and radii. This keeps the base unit hygienic at all times and also protects the carcass, even if liquids leak out. The hard-wearing plastic with a modern structured surface withstands a daily use without restriction. The TOP SORT series can be individually adapted to all frame systems commonly available on the market for cabinet widths from 600 to 1,200 mm and is reliably supplied as a completely finished product.

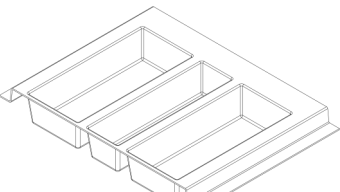

- Optimum and hygienic use of the base unit pull-out in the kitchen cabinet
- Basic insert for 60 to 120 mm corpuses
- Ergonomic basic dividers
- Accessories consisting of bowls and can inserts
- Easy-to-clean radii
- Flexible use in all common drawer and cupboard types
- Made of resistant plastic
