WINGS Part 1

WINGS Part 2

With its WINGS insert system, ELCO has developed a product that can be used in many ways. Practical in use with logically arranged compartments, WINGS is not only conceivable in the kitchen or bathroom cupboard, but also in the office, dressing room or wardrobe. The hard-wearing plastic with a modern structured surface withstands daily use without restriction.

All cabinet sizes can be equipped with just two basic items. The one-sided closed design of the inserts allows free horizontal positioning. In combination with an anti-slip mat, additional storage space is created.

- Optimal use of the drawer in the kitchen or bathroom cabinet
- Easy to clean
- Ergonomic basic divisions
- Flexible use in all common drawer and cupboard types
- All cabinet sizes can be equipped with two articles
- Made of durable plastic
- Combination with an anti-slip mat makes additional storage space available
